EDUCATION

University of California, Irvine | Irvine, CA

September 2025 - Present

B.S. in Data Science

- Courses: Boolean Mathematics, Data Structures and Algorithms, Probability and Statistics I-II, Machine Learning and Data Mining

Cypress College | Cypress, CA

August 2022 - June 2025

A.S - Transfer in Mathematics

- Courses: Intro to Data Science in R, Intro to Statistics, Intro to Python, Advanced Python Programming, Programming in C++, Data Structures and Algorithms, Data Visualization in Tableau

PROJECTS

ZotHomes | ZotHack 2025 | [Project Link](#)

November 2025

- Collaborated with 2 developers to build a centralized housing web platform, integrating a roommate matching system and real-time database retrieval using Firebase and FastAPI.
- Designed a user-friendly UI with Figma, HTML/CSS, and React, ensuring interactive browsing.
- Applied ZotGPT from University of California, Irvine to create chatbot for users instead of FAQ pages.

WORK EXPERIENCE

Mission Assurance Specialist Intern

May 2026 - Present

NASA L'SPACE MCA | Remote

- Reviewing mission documentation to ensure compliance with NASA safety and quality assurance standards.
- Identifying and tracking project risks to support mission success across the spacecraft development lifecycle.
- Collaborating with cross-functional teams to verify technical requirements were met throughout mission concept design.

Creative Engagement Intern

April 2026 - June 2026

CareTech UCI | Irvine, CA

- Leading and brainstorming technical workshops introducing the concepts of healthcare and AI in engaging ways.
- Planning and executing initiatives to build community, increase member participation, and enhance the meaningfulness of club events.
- Collaborating with club leadership to shape CareTech's events and organizational initiatives.

Undergraduate Research Intern | [Project Link](#)

June 2024 - August 2024

National Science Foundation | Irvine, CA

- Collaborated with a cross-functional team of 5-6 members to analyze a complex dataset.
- Developed a predictive model to classify between Mild Cognitive Impairment and Alzheimer's Disease.
- Presented findings at a symposium, effectively communicating results to a professional audience of experts.

TECHNICAL SKILLS

Languages: Python (numpy, pandas, seaborn, matplotlib), R (ggplot2, tidyverse), C++, Tableau SQL, MATLAB

Tools and Frameworks: Git
